PETITIONS OFFICE

Details of Efforts to Reach Omitted Inventors.

1. Prior to the issuance of U.S. Patent 6,019,789, from which the present Application is a Reissue Application, all of the omitted inventors signed declarations stating that they were inventors of the subject matter contained in U.S. Patent Application 09/053,887 (now U.S. 6,019,789), and signed assignment papers assigning all of their rights to the subject matter contained in the U.S. Patent Application 09/053,887 to Quanam Medical Corporation, of Santa Clara California (Assignee).
2. Following the filing of the present Reissue Application, I received a copy of the Notice to File Missing Parts of Reissue Application (mailed April 10, 2002) from Attorney Walter J. Steinkraus. Following receipt of this notice I began trying to contact the inventors for the purpose of acquiring their signed declarations of inventorship. In a Declaration dated October 9, 2002 I summarized my efforts in attempting to contact inventors Robert Eury, Loc Phan and Linh Dinh. In light of a Decision Refusing Status under 37 CFR 1.47(a)

Application No. 10/061,458

which was received from the Office of Petitions of the U.S. Patent and Trademark Office on April 10, 2003. I have subsequently attempted to contact all of the listed inventors of the original Application as described below:

A) In regard to omitted inventor Robert Eury:

In a further effort to locate and contact Robert Eury, on April 29, 2003 I sent a package including a letter; a copy of U.S. Application No. 10/061,458, including a copy of the specification, claims and drawings; and a declaration of inventorship for Mr. Eury's review by Federal Express to the most recent address I had on file for his home at 5190 Boxwood Place, Riverside, California 92506.

However, On May 7th 2003 I received a telephone call from a Mr. Robert Eury at which time he informed me that while he had received the package he was not the Robert Eury who had previously worked for Quantum Medical Corporation nor did he know how to contact the Robert Eury I was attempting to locate.

B) In regard to omitted inventor Loc Phan:

In trying again to contact Loc Phan, on April 29, 2003 I sent a package including a letter; a copy of U.S. Application No. 10/061,458, including a copy of the specification, claims and drawings; and a declaration of inventorship for Loc Phan's review by Federal Express to the most recent address I had on file for Loc Phan's home at 1197 Fargate Circle, San Jose, CA 95131. Subsequently, the package was returned as being undeliverable.

C) In regard to omitted inventor Linh Dinh:

In attempt again to contact Linh Dinh, on April 29, 2003 I sent a package including a letter; a copy of U.S. Application No. 10/061,458, including a copy of the specification, claims and drawings; and a declaration of inventorship for Linh Dinh's review by Federal Express to the most recent address I had on file for Linh Dinh's home at 2233 Augusta Place, Santa Clara, CA 95051.

On May 19, 2003, I again attempted to reach Linh Dinh by mailing a reminder letter to the same address.

D) In regard to omitted inventor Michael Froix:

In a further attempt to contact Michael Froix, on April 29, 2003 I sent a package including a letter; a copy of U.S. Application No. 10/061,458, including a copy of the specification, claims and drawings; and a declaration of inventorship for Michael Froix's review by Federal Express to the most recent address I had on file for Michael Froix's home at 3422 Woodstock Lane, Mountain View, CA 94040.

On May 19, 2003, I again attempted to reach Michael Froix by mailing a reminder letter to the same address.
